

Audi Rivai DKatalis Test

AUDI RIVAI

Average time to resolve complaints across a number of different issues

PostgreSQL Code

```
select avg(extract(second from ser_time) + extract(minute from ser_time) * 60 + extract(hour from ser_time)* 3600)/60 as minutes, e.issue from
crm_call_center_logs c inner join crm_events e on c.complaint_id = e.complaint_id group by e.issue;
```
